Rest	Rest days are important. You can do a recovery / coffee ride if you are keen to 'actively recover' (like the pros) be on the bike but take it easy (think Grandma easy) - Indoor training, keep the fans OFF and keep your work effort low enough so you don't sweat (too much)
General 25-27km/hr	Flex the days to suit your lifestyle but make sure you aim to do these 3-4 sessions a week. If you can't get out on the road, do the session on an indoor trainer (best suit your "flats" session) or jump on the bike in the gym. 2 gym/pilates/yoga sessions. 2 walk or run sessions

Global Cycling Network have examples of strength workouts that you can do without equipment at home. Adapt the suggestions below to suit your ability and your workout. Feel free to research your own exercises and stretches.

All exercise should be undertaken within your ability, ensuring you are performing each exercise with the correct form and cease the exercise if you experience pain or discomfort. Ensure you are adequately hydrated with suitable nutrition (and ventilation for indoor training) before each session. **You will need to attend 5 TDC Supported weekend rides** (Minimum 40km) to meet our assessment requirements. Plan to attend the rides early in your training program to enable us to tailor your program.

We use Zwift for those with access to a smart trainer but you can always listen in on Discord using a regular indoor trainer.
